WayPoint 100

- 400Mhz Intel Xscale CPU
- 224Mb total memory
- Amplified Car Mount Included

Key WayPoint 100 Advantages

1. Most affordable All-in-One-Box portable navigation system
2. 30 days of traffic and weather services
3. Fully upgradeable to Bluetooth later.

The WayPoint is a new family of portable navigation systems by Mobile Crossing. Our company is committed to providing the finest navigation systems for today's active drivers.

Before purchasing your first GPS navigation system, here is some information to help you make your decision:

Portability

If it is important to you that your GPS system works well in your car as well as your pocket, the WayPoint is an excellent choice. The WayPoint is lightweight, thin and runs for over 3 hours on battery power. It retains all the features of the expensive in-car navigation systems, yet, can be moved easily from car to car, and due to an onboard lithium ion battery, can work as a hiking and marine GPS in a pinch.

Navteq Maps and Points of Interests (POI)

Ensure your choice of GPS navigation system has Navteq Onboard™. You will depend on your navigation system to never get you lost, so never compromise on the quality of maps. Navteq also provides millions of points of interest covering all the best places to visit. Nobody else makes better maps than Navteq. All members of the WayPoint family come with Navteq Onboard.

Spoken Directions

Face it, you will have the radio on, your passengers will be talking and any number of distractions will be happening around you. Your navigation system needs to be loud and clear with natural spoken directions that guide you turn-by-turn. Unlike other navigation systems that use difficult to understand computer voices, the WayPoint is pleasantly human.

Windows Mobile 2003 Premium Edition

Although the WayPoint is designed to be an excellent navigation system first, it is important to most people today that their devices are well integrated. If you do not already own a digital organizer, you will be pleasantly surprised to find that the WayPoint is 100% compatible with all Windows Mobile (Pocket PC) applications. In fact, it contains a complete set of Windows Mobile 2003 Premium Edition applications including Internet Explorer, Windows Media Player, and Outlook compatible organizer applications.

WayPoint 200

- 400Mhz Intel Xscale CPU
- 224Mb total memory
- Amplified Car Mount Included
- Bluetooth Capabilities

Key WayPoint 200 Advantages

1. One full year of traffic and weather Services
